NAPA をインストールするパソコンの推奨スペック

Updated on 1st September 2022

Operating system versions

The following operating system versions (64-bit only) are currently supported:
- Windows 10 version 1909 or later
- Windows 11

Hardware configurations

A high performance workstation is recommended for NAPA use:

- fast processor with x64 architecture (e.g. Intel Core i7)

- sufficient memory (16 Gb or more)

- SSD hard drive

- Gigabit ethernet

- Graphics Adapter: 4GB memory, OpenGL 1.2 compatible and DirectX 11+ compatible

- Minimum screen resolution 1920 x 1080 pixels, but 2560 x 1440 pixels recommended

- Operating System: 64-bit Windows from the above
